MUSIC DEPARTMENT.

The course of study is ample. Instruction will be given in Instrumental and Vocal Music; also, in the Theory of Music, Thorough Bass, Harmony and Composition. Pupils may pursue the study of music alone, or may take music with studies in the other departments. Those who shall complete the course of study will receive a diploma. Professor S. B. Morse, Director of the Indiana Conservatory of Music, will have supervision of and impart instruction in the College Conservatory.

Written and oral examinations will be held at the close of each term.

Upon application, a report of the standing of students will be furnished parents and guardians.

LITERARY SOCIETY.

The Union Literary Society has an eligible hall and a fair library. Meetings will be held weekly. The anniversary will take place during commencement week.

FORT WAYNE COLLEGE.

This Institution is situated in the most desirable part of the City of Fort Wayne. The College *campus* consists of a block of twelve city lots, or a little less than three acres. The building is one hundred and seventy-five feet long in front, with proportional width for solidity and durability, and is four stories high. The foundation is of stone, the walls of brick. The building affords eligible recitation rooms, literary and lecture halls for five hundred students, and also accommodates one hundred boarders with healthful study rooms, sleeping apartments, and dining halls. The chapel will seat about one thousand persons. The *campus* and building are worth, for educational purposes, about seventy-five thousand dollars.

APPARATUS.

Astronomical, Chemical, Philosophical and Pharmaceutical Apparatus, together with Globes, Maps and Charts, have been procured.

Text Books, Sheet Music and Stationery sold at the College Building.

The College is under the patronage of the North and North-West Indiana Conferences of the Methodist Episcopal Church.

REMARKS.

Those who board in the College Building will furnish their own rooms or pay a fee of fifteen cents per week for use of bedstead, stove, stand, chairs and wardrobe. They also furnish sheets, coverlets, blankets, pillow cases, towels and napkins.

By the club system the price of table boarding has been reduced to about one dollar and seventy-five cents per week, and will vary with the cost of provisions. Ladies and gentlemen are admitted to the club, and will be associated with and under the supervision of their teachers. Ladies form small clubs of from two to ten, do their own work, and board at less expense. Boarding can be obtained in private families at about three dollars and fifty cents per week.

GOVERNMENT.

The government of the College will be mild but firm, requiring each student to conform to the rules and regulations, a copy of which will be given each student upon entering.

ABSTRACT OF THE RULES.

Students, after they enter College, are subject to all the laws and regulations of the Institution.

Students will not be allowed to absent themselves from College without permission of the Faculty.

Smoking in the College building, or on the *campus*; absence from rooms at night, later than ten o'clock, without permission; all unnecessary noise; congregating in the halls, or visiting each others' rooms; using profane language; carrying unlawful weapons; games of chance; using intoxicating liquors; visiting drinking, billiard or gambling saloons; injuring, in any way, the College building or furniture, and all other violations of good order, are strictly prohibited.

Students are required to attend church on the Sabbath.

Students who board in the College building, will recite within the same, and will be under the special protection of the Faculty. Ladies will receive calls only in the public parlor, and will return calls, take walks for health, pleasure and shopping, and attend church under the protection of the Lady Principal.

Vigilant attention will be given to the health, manners and morals of all the students.
